Amazon is one of the most popular online shopping destinations, offering a wide variety of items at competitive prices. However, because of certain factors that affect online shopping, online purchases don't always come as expected, and you may need to return an item.

With these said, here's how to get refund on Amazon purchases in 3 easy steps:

S:

Step 1: Log into your Amazon account

Step 2: Amazon will provide you with return shipping options

If you choose to have Amazon return it for you, they will provide you with a return shipping label. Click the 'Continue' button after selecting your preferred option.

Step 3: Pack the item and ship it back to Amazon

Condition of the Item. The condition of the Amazon items being returned must be new, unopened, and undamaged. The customer is liable for return shipping expenses unless the Amazon seller is at fault.

The refund typically takes 5-7 business days to process, and the credit reflects on your account statement after 1-2 billing cycles.

What is Betting News?

Knowing what bets to make is important, and a big part of what we do is offering information and advice to help bettors with determining their daily bets on everything from the NFL to tennis.

But knowing where to bet, what kinds of sports betting options are at your disposal, the types of promotions and rewards that may be on offer, and what popular betting terms mean is equally as important, and we have you covered there as well.

We do this by providing written and video content on the most important stories and biggest events in sports betting, collecting and presenting critical information such as picks and odds from across the industry, reviewing and suggesting online betting sites and tools, and much more!

Written, Video & Social Content

In addition to our content centered about the games to bet on the bets to make in those games, we offer a number of sports betting guides to help our fellow bettors.

In addition to any human picks provided by our content team, Betting News also aggregates and presents picks and predictions for every for every NFL, NBA, NHL, and MLB game from several reputable betting information sites.

Our honest reviews list the good, the bad and the ugly to arm you with the information you need to rest assured your money is in good hands.
