Under the current opinion, the DOJ believes the Wire Act applies to all forms o
f gambling.

The Wire Act: The Interstate Wire Act of 1961 was enacted to target mafia group
s that ran sports betting organizations across state lines.

After PASPA was stricken down, states gained the ability to legalize sports bet
ting if they choose.

Beyond that, no state was allowed any form of sports betting.

The confounding factor in all of this is that the law in many states is outdated
and unclear on the legality of online horse racing betting, leaving it up to in

dividual operators to interpret the law in each state and determine whether or n
ot they are comfortable offering their services there.

Interestingly, it was the push to legalizing online lotteries that led to states
gaining the authority to regulate online casino games and poker as well.

In 2009, lottery officials from Illinois and New York requested an opinion from
the Department of Justice on whether or not their plans to legalize online lott

ery sales would violate the Federal Wire Act.

The most significant risks associated with illegal online gambling result from
the lack of consumer protection regulations.
