Baccarat History - Learn About One of The Oldest Card Games

The origins of the card game are debatable, but most believe it was created in the 1400s by a man named Felix Falguiere or Felix Falguiere.

This original version of baccarat was not played the same way it is today.

In today's game there is one dealer, bets are typically placed against the house, and the house also fills in the banker role.

King Charles VIII and his noblemen loved the game, and Chemin de Fer remained a hit with the French aristocracy for centuries.

As more time passed, baccarat cropped up in South America and in the Caribbean, where under the name of Punto Banco, it adapted to the local culture.

The main changes included the players playing against the house only, and the banker role being reserved solely for the casino.

This kind of baccarat is what we now know as "American Baccarat."
