Start with an empty 10 by 10 grid.

This will give you 100 Squares that you can let your Users select.

Now assign one team to the columns, and one to the rows.

Begin recruiting your Users to join your Football Squares pool.

If you decide to use a Spreadsheet or Printable Sheet, then this process will t

ake you a lot more time simply because of having to try and share a single sheet

or spreadsheet.

Randomly assign numbers 0 through 9 to each column, followed by doing the same

for each row.

Now each square represents a specific score in the game based on the column and

row numbers.

The winner is determined by looking at the last number in each of the teams''

score, and then matching those numbers on the grid and seeing which square int

ersects those two numbers.

The internet has revolutionized the way gambling works.

In more recent times, online bookmakers have diversified their offering with pro

ducts such as online casinos, poker and even bingo.

This requires a vast amount of technical knowledge, infrastructure and well set

out rules to ensure that online bookies' operation is smooth, fast and fair

for all their customers.

Live streams can allow you to watch what you're betting on, while a host of

markets within a large number of sports can also be appealing.

Today, 'in-play' markets on sites which are easy to navigate and have pl
