Reviews decide seller rank for selling same products. For a single products, there are thousands of sellers. So rating & reviews decide, which seller will get first rank if user search for products.

Suppose, if seller gets consistently bad reviews on products or ratings, Amazon

will show that products to lesser audience by lowering down their rank.

Remember Customer satisfaction is most important here &#128513;

But why doesn't she?

As an Affiliate you are an online sales man.

My point is that traffic is valuable!

Doing a quick Google search for Dehumidifier affiliate program landed me on a De

humidifier vendor site that pays 15% instead of 4%.

Companies are willing to pay a lot of money for this traffic, if you are able to

generate it.

Meanwhile, for the advantage players, this is a negative number.

We can flip the coin for hours and neither each of us will have an advantage.

If we flip the coin a 100 times, we get an average of 50 wins (\$55) and 50 loss

es (\$50).

Now the expected value of the bet is positive.

Each wager in sports betting has either a negative or positive expected value.
