This App is not as BAD as some of the reviews, but it is hard to maneuver, especially when there is no one to speak too.

My 1st problem was when I won \$1,000, I put it in , to withdraw, and waited, and waited.

it states that you will receive an email, but I did not get anything from them, I had an overnight stay at the Casino Hotel coming up, and wanted to play my winnings there.

I saw that they were requesting a photo of my License, a copy of the card that I used, and my banking information (I used a Checking deposit slip), they ask that you cover up most of your account numbers leaving only the last 4 numbers visible.

I would have rated this App higher.
